

Night Sky Journey

Exclusive guided astronomy experiences of Dark Sky viewing,
where the universe comes alive before your very eyes

Join us in our corner of the proposed 900-square-km Dark Sky Reserve as we introduce you to astronomers who will guide you in viewing through state-of-the-art telescopes to explore our stunning night sky for yourself. Accompanied by an illuminating welcome presentation with hot drinks and soup in a relaxed small-group atmosphere, these evenings will open your eyes to the wonders of the cosmos.

Departing from the Montville Tourist Information Centre Bus Zone, we farewell the twinkling lights of the Sunshine Coast to experience the health and ecological benefits of a low-light nighttime environment. We meet our expert hosts in the great outdoors to learn about our local night sky and explore it in detail using telescopes set up in an open area. Numbers are limited, ensuring ample time for viewing and discussion.

Date: Friday 7 June

Cost \$120 per person

Includes

- Pickup & return at Montville Tourist Information
- Visit to the Hinterland's proposed Dark Sky Reserve
- Unique presentation by leading local astronomers
- Viewing through professional telescopes
- Complimentary tea, coffee, hot chocolate & soup
- You are also most welcome to bring your own food

Explore the wonders of the universe from our unique vantage point

The clear, crisp mountain air of our Dark Sky viewing location promises astonishing views of the stars and planets above us. We can't wait to share this exclusive experience with you!

Bookings are required for this private event.

Sharing Australian Story Tours

Lynn & Andrew

Thank you to Dr Ken Wishaw for the outstanding authentic images captured right here in the Sunshine Coast Hinterland.
